Toni,

Do you have anything to do with access to folders on the H drive?

Thanks,

-Chuck

I've added both documents to H: REGION SHARE/Westlake Tracker for your review and comment. Add your comments to the Word version using track changes/ comments options. This will allow you to see other suggested comments.

Subject: West Lake Landfill: DRAFT response to Dr. Criss document

Team, attached is my draft response to the recent document from Bob Criss, "Risk and Character of Radioactive Waste at the West Lake Landfill, Bridgeton, Missouri" dated March 14, 2013 and distributed at the Missouri Coalition's public meeting earlier this month. Responding to this was one of the action items for the newly-formed West Lake management group / coordination team. I'm also attaching Dr. Criss' document for reference. Please review and comment, and give some thought to how we share EPA's response with the public.

Sincerely,

Daniel R. Gravatt, PG
